

Below is a quick reference for working with the Election Polling Places Map

## Navigate Tools

- To zoom, use the **Zoom in** button **+** or the **Zoom out** button **-**, the mouse and scroll wheel, or the arrow keys on the keyboard. To zoom in, you can also press and hold the Shift key and drag a box on the map.
- To zoom the map to its initial extent, click the Default extent button . You can also browse the map to a predefined extent through a bookmark.
- To pan, use your mouse and scroll wheel or the arrow keys on your keyboard.
- To find your current location, click the Find my location button . You may need to authorize the site to access your location information. Your results may vary based on your connection type, Internet Service Provider, physical location, network, and browser.

## Legend

### Legend

 Polling Places

### Council Districts

-  District One - Up for Election (2016)
-  District Two - Up for Election (2016)
-  District Three - Not Up for Election (2018)
-  District Four - Not Up for Election (2018)

# Search Tools

Search an address or locate on map

Enter the origin in the text box and hit enter or click to add point.  The origin should include the city and state or the origin. For example: 800 Municipal Dr., Farmington, New Mexico.

Using the click to add point  it will turn dark  when active. Then click on the map to add the point.

If the address was found in a district that was participating in the election a pop-up would appear along with information about the nearest polling place and precinct.

# Directions

Use Directions to get a set of turn-by-turn driving directions. Click on the Directions tab and the directions will appear in the window.

Use the print button to print the directions out.

## Pop-Ups

Pop-ups bring to life the attributes associated with each feature layer in the map, such as Polling Location or Council District.
